

Construction and Manufacturing Can Start Operating in Moscow

the Moscow Mayor prolonged the **self-isolation regime** in Moscow until May 31, 2020.

However, **construction and manufacturing** can resume their business operations from May 12, under **strict constraints** for their employer and employees incl. medical tests and usage of protection means. The majority of businesses, specifically in the service sector, must remain closed.

In addition, the new decree from May 7, obligates all citizens to **use masks and gloves** in public transportation including taxi and shops as well as assure social distancing.
