
At **GTS URUGUAY** we create a portal with the most relevant news generated by reason of COVID-19 and that have an impact on labor, tax, and other aspects.

We collect and update this post on a daily basis to have the most relevant topics in one place and we seek to inform not only our clients who are already regularly aware of the impacts of the different approved regulations, but also to anyone who needs to consult us for their personal situation, whom we will attend to the emergency with pleasure at no cost.
