

NEW COVID-19 SERVICES

Marcum Search now offers a new COVID-19 related service to enhance the transition back into your office space.

Many companies could benefit from additional cleaning staff during business hours to keep up with the sanitizing and disinfecting demands of COVID-19. Marcum Search can provide your organization with cleaning professionals who can be onsite daily to supplement your landlord provided cleaning service. Our services will both keep your work space clean and give your employees added peace of mind in this transition phase. Marcum Search cleaning professionals can be onsite for as many hours as needed to clean whatever is needed. We will either provide the cleaning products or use those provided by your organization. Pricing will vary based on the level of the cleaning and amount of cleaning products used.

The CDC encourages cleaning of high-touch surfaces such as counters, tabletops, doorknobs, light switches, bathroom fixtures, toilets, phones, keyboards, tablets and tables. Other spaces mentioned in the CDC's guidance for commercial spaces include:

- Kitchen/Food Areas
- Bathrooms
- Desks and cubicle surfaces
- Phones and computer equipment
- Offices
- Water Fountains

- Shelving/Racks
- Elevator Cars

We are excited to offer this service and together help move your company into a safe, return to normal, work environment.
